

# EARTHQUAKE

**Resist the Urge to Run! Drop, Cover and Hold Where You Are!**

**EARTHQUAKE** n. A series of waves in the crust of the earth caused by movement along geologic faults or volcanic action.

When the ground shakes:

- Drop where you are
- Cover under or beside something sturdy
- Hold on until the shaking stops

**TODAY:**

- Choose a safe place at work and home in every room
- Practice getting there to protect yourself when the ground shakes

**DO WHAT IS SAFE! PRACTICE WHAT YOU KNOW!**

When at the beach:

- Practice evacuation routes
- If the ground shakes...
- If you hear a siren...
- If the ocean recedes from the shoreline...

**Evacuate Immediately!**

**TSUNAMI** n. *tsu* = port + *nami* = wave. A very large ocean wave caused by an underwater earthquake or volcanic eruption.

**Do Not Hesitate! Run Inland Or To High Ground Immediately!**
